Pininfarina set

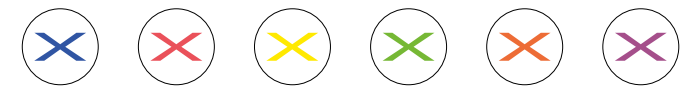

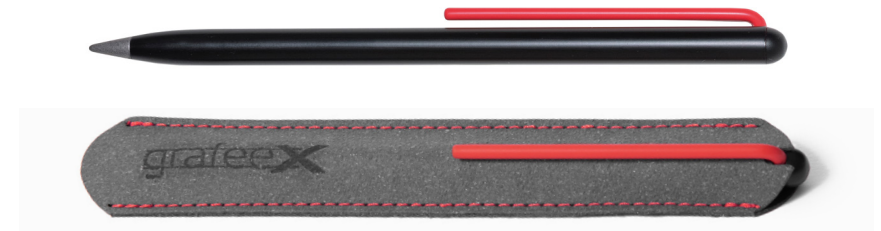

notes + grafeex

- paper made from stone waste
- without the felling of trees
- without aggressive chemicals
- without use of water
- waterproof and tear-resistant
- reduced CO2 emissions

Grafeex, is an innovative material obtained through a revolutionary process of sintering individual graphite particles. The result is a brand new compound that changes the concept of pencil while maintaining its distinctive features. The Grafeex tip, assembled on a matte black aluminum stem, combined with a uniquely designed clip, guarantees a durability far beyond the one of a normal pencil and can be replaced with a simple gesture. An elegant recycled sleeve hand-stitched.
